### PROJECT

#### TikTok clone

1/2025 – 3/2025

**Technologies:** JavaScript, HTML/CSS [SCSS], ReactJS

#### Project Description:

Developed the UI for a web-based TikTok clone, focusing on key features:

- **Homepage:** Showcases a list of recommended videos.
- **Theme Switching:** Supports light and dark mode themes.
- **User Search:** Enables users to search for accounts by name or username.
- **Profile Page:** Displays user profile information, including avatar, bio, and uploaded videos.
- **API Integration:** Fetches dynamic data from an external API.
